APE 50 07/16

Ape 50 Range

APE 50

Born in **1969** and constantly updated to comply with the legislative norms and the safety canons, Ape 50 has always been loyalty to itself and has become an "evergreen", a part of our customs, Italian and not only. Ideal for the transport of commodities in the narrow roads of both country and city contexts, Ape 50 is unbeatable for **compactness, drivability, inexpensiveness and sturdiness**. But, thanks to its eye-catching uniqueness, Ape 50 is also an amazing **recreational** vehicle and a starring in **advertising** firms, products and events.

PICK UP

The bestseller, available with **iron or alloy sides** and in short and long deck versions.

VAN

The perfect partner for professionals performing **frequent local deliveries** or **small services**, like cleaning, repairing or maintenance works, in **down-town or particularly congested contexts**. In fact, thanks to its compactness and its incredibly reduced steering radius, it is completely comfortable with traffic and very easy to park. Ape 50 Van can transport up to **170 kg of cargo**, completely sheltered and protected in its **1,5 m³** rear compartment.

INIMITABLE

Ape 50 is unique. It belongs to the moped class and can be driven at 14 years age. Its rear traction three wheels scheme makes it a «natural off road» vehicle, comfortable with both paved and unpaved roads. Its loading capacity, related to compactness and low consumption, has no rivals (up to 200 kg loads and up to 1,5 m³ cargo volume) and makes Ape the ideal solution for both professional and hobby missions.

CROSS

A real **off road looking pick up** thanks to the roll-bar and the front and rear iron bumpers, completed by the predisposition for a standard car radio for full fun.
