Ape Classic

APE CLASSIC

Two models, infinite possibilities

A travelling business or a quick and efficient urban delivery service idea?

The flexibility and multi-purpose nature of **Ape Classic** allow both ideas to be turned simply and quickly into a successful business.

Available in the **Deck** and **Van** version, Ape Classic represents an extremely practical, functional and economic solution to urban mobility.

A multi-purpose vehicle that conveys the perfect blend of typically Italian style and originality through its shape: winning requirements for those who want to create an attractive showcase for their business.

HIGH PERFORMANCE AND EFFICIENT
High performance Euro 4 diesel engine (power of 6.20 kW @ 3,600 rpm. and torque of 22 Nm @ 2,250 rpm.)

EURO 4

Thanks to the modern **diesel engine** that complies with **Euro 4** emissions regulations and at the same time guarantees generous performance, with Ape Classic, work never stops: its **compact dimensions** let it circulate even in the most congested city centres where the need to move around quickly and efficiently is greater every day.

The lines of the body are reminiscent of all the beauty of the typical vintage flavour of the first Ape Classic models, giving the vehicle an **inimitable and elegant style**.

VAN

Unique with its exquisitely vintage design, **Ape Classic Van** is the perfect answer to **transport and delivery in an urban environment**, at the top of the short range category (up to 675 kg of usable cargo capacity).

Thanks to the **wide opening rear door equipped with a handle**, the **fully usable cargo area of 2 m³** is easily accessible and guarantees safe and well organised transport.

With Ape Classic Van, you can personalise your business in an original way and become a protagonist of the urban setting.

Ventilation ducts that guarantee adequate ventilation and prevent the stagnation of humidity and condensation in the cargo area.

Predisposition for the application of advertising panels on the side panels (wrappable material)

Predisposition for the installation of shelves useful for optimising distribution of materials and to facilitate unloading operations.

ARTIC WHITE

CHARMING BLUE

DECK

The perfect companion for developing your sales operations, **Ape Classic Deck** stands out for its **versatility, agility and sturdiness**. The secret of its success lies in its configuration: a frame capable of transporting **up to 750 kg** of usable cargo that can be conveniently distributed over a 1,660 mm x 1,400 mm bed.

Ape Classic: for even more trendy street food

Capable, not only of making every business immediately recognisable, but also original, fanciful and high quality. Ape Classic enhances every configuration that offer both the most traditional proposals, such as coffee, ice cream and pizza, and more trendy solutions, such as Italian or local specialities, delicacies of the territory or ethnic cuisine.
